# Taking care of your health and safety

Keeping your business, the environment and people safe is your top priority – and like most things, if done well, takes time and knowledge. Regarded as a leader in Health & Safety management, Suresite is ready to help you meet all of your obligations for a safer and happier business environment.

We believe in keeping things simple whilst offering outstanding customer service, acting like an extension of your own team and building strong relationships. Through collaboration and understanding of your business needs we ensure value, efficiency and peace-of-mind.

## Safety first

Whatever your business, from retail premises to petrol forecourt, from hospitality to professional services, you have a responsibility to operate safe and compliant premises. We have been carrying out Health & Safety risk assessments across the UK and Ireland for over 27 years, and we can take care of yours too:

**Flexible audits and assessments** – most assessments can be specifically adapted to suit the unique needs of your business.

**Save time** – we will guide you through the whole process and identify the areas for action, so you know exactly what to do.

**Full regulatory compliance** – let us help keep you and your business safe, avoiding fines and criminal offences.

**Affordable** – as an independent business we tailor our pricing to suit your business needs, ensuring we stay competitive.

**Improved customer experience** – people prefer to choose a business environment that feels safe and organised.

**Premier service** – real person, UK based support with subject matter expertise in Health & Safety.

**Dedicated support** – you'll be assigned a dedicated assessor who will be your point of contact to offer ongoing guidance and support.

**Staff wellbeing** – our assessments include staff wellbeing, from lone working to violence and aggression in the workplace.

**Embed a safety-first culture** – we will discuss our report findings with you onsite to ensure a full understanding of any issues and actions required.

## Suresite Health & Safety feature list
